

`writeDcscRegister`

```
graph LR; A[writeDcscRegister] --> B[seek_dcsc]; A --> C[write_dcsc];
```

A diagram showing a central node on the left, a gray rectangle labeled `writeDcscRegister`. Two blue arrows originate from the right side of this rectangle. The top arrow points to a white rectangle labeled `seek_dcsc`. The bottom arrow points to another white rectangle labeled `write_dcsc`.

`seek_dcsc`
