

ScanCoefficients

```
graph LR; A[ScanCoefficients] --> B[getFloatNumberFromArg]; A --> C[getHexNumberFromArg]; A --> D[setDebugOptionFlag];
```

The diagram illustrates a central node, 'ScanCoefficients', which is highlighted with a gray background. Three arrows originate from the right side of this node and point to three separate white rectangular boxes arranged vertically to its right. The top box contains the text 'getFloatNumberFromArg', the middle box contains 'getHexNumberFromArg', and the bottom box contains 'setDebugOptionFlag'. All boxes and arrows have black outlines.

getFloatNumberFromArg

getHexNumberFromArg

setDebugOptionFlag
